

HEMAVATHI D

UI/UX & Graphic Designer

+91 8056675868 | hemavathi8495@gmail.com | LinkedIn: Hemavathi D | Behance: Hemavathi D

PROFESSIONAL SUMMARY

UI/UX Designer with 2+ years of experience in user research, usability testing, wireframing, and prototyping. Proficient in creating intuitive user flows, responsive designs, and high-fidelity prototypes that align with user needs and business objectives. Experienced in collaborating with cross-functional teams, including product managers and developers, to deliver successful digital products across healthcare, finance, and enterprise domains.

TECHNICAL SKILLS

UX Research & Strategy: User Research, User Surveys, Usability Testing, Affinity Mapping, User Persona Creation, Storyboarding, Brainstorming

Design & Prototyping: Wireframing, Prototyping, User Flow Design, Information Architecture, Responsive Design, Design Systems

Visual Design: Typography, Branding, Color Theory, Logo Creation, Iconography, Illustration

Software Tools: Figma, Adobe XD, Balsamiq, Adobe Illustrator, Adobe Photoshop

WORK EXPERIENCE

UI/UX Design Intern [Clikin Tech – Software Development] [April 2024] – [July 2024]

- Collaborated with a cross-functional team on mobile app and website design projects.
- Gained hands-on experience in UX research methodologies, wireframing, and responsive design principles.

UI/UX Designer [CloudBees Technology] [June 2024] – [April 2026]

AWE Project

- Designed and optimized a user-friendly HR dashboard for employee records, leave management, and real-time insights, improving overall workflow efficiency.
- Developed a responsive HR dashboard with intuitive UI components, user flows, and data visualization to streamline employee management.
- Collaborated with stakeholders and developers to ensure user-centered design and smooth developer handoff.

CBT Project

- Created an intuitive internal business dashboard featuring data visualization, role-based access controls, and streamlined workflows.
- Supported decision-making processes and improved team productivity through user-centered design solutions.

Le Pondy Website

- Revamped the website UI using modern design principles, improving navigation, visual aesthetics, and mobile responsiveness for an enhanced user experience.
- Conducted usability evaluations and incorporated feedback to ensure accessibility and consistency across all device types.

Crook Junk for Food App

- Designed end-to-end UX for a food ordering mobile application, including user research, persona development, information architecture, and high-fidelity prototypes in Figma.
- Created intuitive navigation flows for menu browsing, cart management, and checkout to minimize user drop-off and enhance engagement.
- Conducted usability testing sessions and iterated on designs based on user feedback to improve task completion rates.

Senthur Velavan Website

- Designed a responsive website UI focusing on clear information hierarchy, brand consistency, and cross-device compatibility.
- Developed wireframes, user flows, and interactive prototypes to map the complete user journey from landing page to conversion.
- Applied branding, typography, and color theory principles to create a visually cohesive and professional digital presence.
